Fig. 3 Annotated Sheet Showing Changes

Remarks

The Notice of Allowability mailed on November 13, 2007 objected to Figure 3A as failing to comply with 37 CFR 1.84(p)(5) because it included reference number 22 which was not mentioned in the description. Attached hereto is an annotated Figure 3A showing deletion of reference number 22. Also attached is a replacement Figure 3A which shows the figure in clean form with reference number 22 removed.

The Notice of Allowability rejected the drawings as failing to comply with 37 CFR 1.84(p)(4) because reference characters "52" and "56" were both used to designate the cartridge holder assembly. Furthermore, the drawings were objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "56" was used to designate both the cartridge holder assembly and the keyway notch. Applicant has amended the specification at paragraph [0031], correcting the mis-labeled cartridge holder assembly from element number 56 to the correct element number 52. Applicant believes the amendment of paragraph [0031] corrects the designations of the cartridge holder assembly 52, and the keyway notch 56. Thus, no drawing revisions are needed, as the amendment to the specification corrects the examiner's concerns.

The Applicant submits that by this amendment the case is in condition for immediate allowance and the issue fee will be paid in due course. However, if any issue remains unresolved, Applicant's attorney would welcome the opportunity for a telephone interview to expedite allowance and issue.
